BRHA Pool Rule Clarifications

7/25/16

I believe that at the July meeting there was some confusion regarding the rules for use of the Pool.
When a monitor is in the building an adult may use the pool as a single person and does not need to bring someone to sit outside the pool.
Although the monitor is not acting as a lifeguard their presence in the building serves as someone out of the pool. This is the same and required, as in the past.
If anyone under the age of 18 is using the pool they must be accompanied by an adult who must remain in the building and can be in the pool providing there is an adult observer outside the pool.
If a monitor wishes to use the pool during scheduled hours and no monitor is present they may do so but must have an adult out of the pool at all times.

I hope this clarifies the rules as we hope as many members as possible can enjoy use of the pool.
